Executive Summary

Introduction

This Plan has been prepared in order to provide key officials, agencies and departments within the Township of Georgian Bluffs with general guidelines on handling emergency situations where a controlled and coordinated response by the Township is warranted. For specific types of situations such as Pandemic Flu Outbreaks, supplements to this Emergency Plan exist and will be adhered to by members of the Municipal Emergency Control Group.

Scope

If the emergency situation is isolated to this Township, the Township is responsible for activating its Township Alerting System first. If the Municipality's Emergency Control Group determines the need to declare that an emergency exists in all, or part, of the Municipality, they will notify the Mayor of the Township of Georgian Bluffs as part of their declaration procedures. The Mayor will in turn notify the Chief Administrative Officer (CAO).

In situations where the local Head(s) of Council determines immediate assistance from the County is necessary, the local Head of Council, Warden, County and Township Chief Administrative Officers, Georgian Bluffs Police Services Board, Grey County OPP Detachment Commander, local Medical Officer of Health, Mutual Aid (Fire) Coordinator or local Fire Chief(s) will activate the County's Alerting System by contacting 9-1-1 and identifying themselves. The 9-1-1 service will then notify members of the Municipal Emergency Control Group, advise of the situation and ask them to assemble at the Emergency Operations Centre. Assembling the Municipal Emergency Control Group does not constitute declaration of an emergency.

For this Plan to be effective, it is important that all concerned parties are aware of its provisions and that every official, agency, department and local municipality are prepared to carry out their assigned functions and responsibilities in a county-wide emergency. It is the responsibility of the concerned parties to know the contents of this Plan. Testing of the Plan will assist in becoming familiar with the contents of the Plan.

Background

Provincial legislation, the *Emergency Management and Civil Protection Act, RSO 1990*, is the primary authority enabling Municipalities (Townships) to develop their own Emergency Plan.

An emergency is defined as **“a situation or an impending situation caused by forces of nature, an accident, an intentional act or otherwise that constitutes a danger of major proportions to life or property.”** Major threats to the Social, Environmental, Political and/or Economic wellbeing of the community may also be considered Emergencies.

In order to protect residents, visitors, and businesses, the Township of Georgian Bluffs requires the capability to conduct a coordinated and integrated emergency response should it be necessary. This capability is over and above the normal procedures used by emergency services during day-to-day operations.

The Township of Georgian Bluffs Municipal Emergency Management Program Committee has developed this emergency response plan in accordance with current Emergency Management doctrine, guidelines, and procedures. Every official, municipal department and agency must be prepared to carry out assigned responsibility in an emergency. All departments and agencies shall prepare plans and procedures, and conduct training that enables them to undertake their assigned roles and responsibilities under this plan.

In addition, it is important that residents, businesses and interested visitors be aware of its provisions. Copies of the Township of Georgian Bluffs Emergency Response Plan may be viewed at the Township of Georgian Bluffs Municipal Office located at 177964 Grey Road #18, in Springmount, Ontario. For more information, please contact the Community Emergency Management Coordinator (CEMC).

Part I - Introduction, Aim, Alerting System, Control Group

Introduction

Emergencies are defined as situations, or the threat of impending situations abnormally affecting the lives and property of our society which, agencies, both governmental and private, under the direction of the appropriate elected officials, as distinct from routine operations carried out by agencies as normal day to day procedures, e.g. firefighting, police activities, normal hospital routines, ambulance routines.

While most peacetime emergencies could occur within the geographical area of responsibility of the Township of Georgian Bluffs, those most likely to occur are floods, tornadoes, hurricanes, blizzards, epidemics, transportation accidents involving hazardous material, toxic or flammable gas leaks, electric power blackouts, building or structural collapse, uncontrollable fires, explosions, breakdown in flow of essential services/supplies, or any combination thereof.

County of Grey Assistance:

If a local municipality declares an emergency and determines that they require further assistance from the County of Grey, the local Head of Council can request County support by notifying the Warden. The Warden will in turn contact the County Chief Administrative Officer who will notify the appropriate department head(s). If the situation requires a significant amount of County resources or the Warden decides, in consultation with the local Head(s) of Council, that the emergency response activities could be better directed by the County, the Warden will notify 9-1-1 to activate the County Alerting System.

When more than one municipality requests County assistance, the Warden will consult with the Head(s) of Council of the affected municipalities and notify 9-1-1 to assemble the County Control Group. If the Warden, in consultation with the County Control Group, declares an emergency, all local municipality Control Groups cease. As identified in Appendix 1, selected members of the local Municipal Emergency Control Group will become part of the County's Control Group.

Aim

The aim of this Emergency Plan is to outline how the Township of Georgian Bluffs will coordinate and organize its resources in an effort to mitigate a large-scale emergency to provide the earliest possible response to:

- i. protect and preserve life and property;
- ii. assist local municipalities as requested;
- iii. minimize the effects of the emergency on the Township of Georgian Bluffs; and
- iv. Restore essential services.

This plan does not intend to identify counter measures for all conceivable crisis situations, but rather develop a standard procedure from which Township authorities can monitor the incident, obtain additional support, and direct a controlled response.

Township Alerting System

The Mayor, Chief Administrative Officer, the Mutual Aid Coordinator, the local Fire Chief(s) and the local Medical Officer of Health may request that 9-1-1 assemble the Municipal Emergency Control Group.

9-1-1 is responsible for alerting members of the Municipal Emergency Control Group, affected municipal representatives and Provincial Ministries, as required (refer to Appendices 6 through 8). The emergency alert will (1) apprise group members of the situation and (2) notify them to congregate at the designated Emergency Operations Centre (EOC). If a group member is unavailable or unable to fulfill his/her duties, a designated alternate will be notified. If this individual is also unavailable, the remaining members of the County Control group will designate a suitable alternate.

When more than one municipality requests County assistance, the Warden will consult with the Head(s) of Council of the affected municipalities and notify 9-1-1 to assemble the County Control Group. If the Warden, in consultation with the County Control Group, declares an emergency, all local municipality Control Groups cease. As identified in Appendix 1, selected members of the local municipality Control Groups will become part of the County's Control Group.

The Township Alerting System is illustrated in Diagram 1 of this Plan.

Township Alerting System

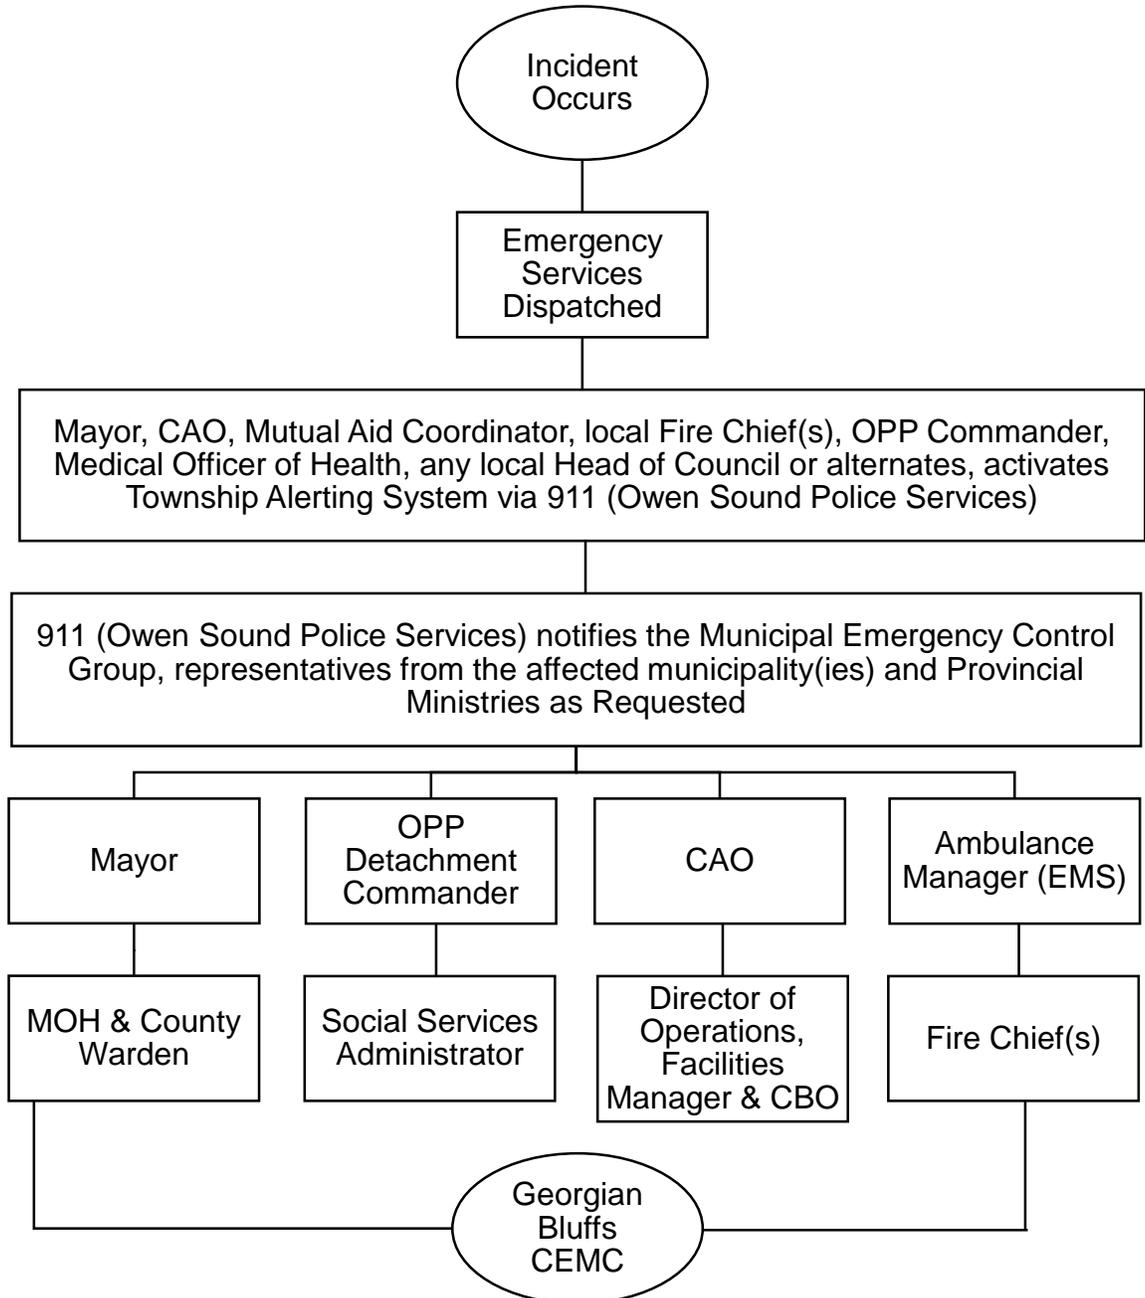

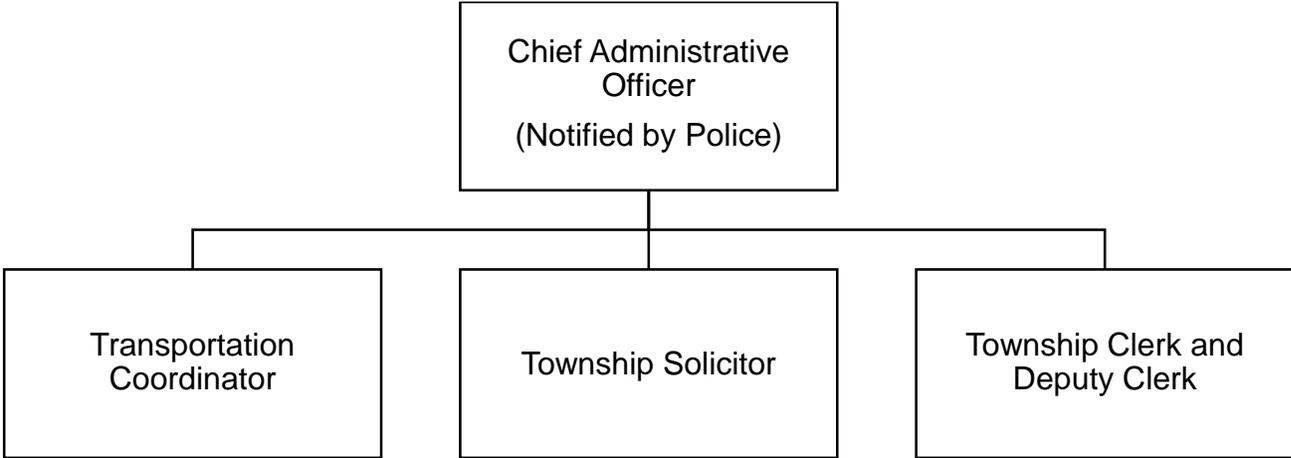

Diagram #2

Internal Alerting System

Emergency Operations Centre

In the event of an emergency, an Emergency Operations Centre (EOC) will be established within the Township of Georgian Bluffs. The Municipal Emergency Control Group, the Support and Advisory Staff and many other groups will congregate and work together at the Emergency Operations Centre to make decisions, share information and provide support as required to mitigate the effects of the emergency. The Chief Administrative Officer is responsible for the **co-ordination of all operations** within the Emergency Operations Centre.

The Emergency Operations Centre will consist of:

1. A meeting room for the Municipal Emergency Control Group which is the Council Chambers in the Municipal Building;
2. A Communications Room (Meeting Room in the Municipal Building);
3. A room for Health and Social Services (General Office Area of the Municipal Building)
4. Rooms for Emergency Support and Advisory Staff and other groups as required; and
5. A Media Information Centre and Press Conference Area will be designated at the time of the emergency and depending on the kind of emergency.

Location

The primary location of the Emergency Operations Centre is the Township of Georgian Bluffs Administrative Building Council Chambers. If a situation arises where this site is inappropriate, the Emergency Site Manager or the Mayor will determine a suitable location for the EOC. A list of designated secondary Emergency Operations Centres is located in Appendix 2.

Features

- a) The Administrative Building (the Building) has a natural gas backup generator permanently installed on site.
- b) The Building is heated by Natural Gas, however in the event that the supply of natural gas is interrupted, the EOC will transfer to the backup EOC building at the Shallow Lake Community Centre.
- c) The Building is supplied with water from a drilled well on Municipal property. In the event of a power outage, the Municipality has a backup generator able to supply water to this building.

Municipal Emergency Control Group Meeting Room

The Municipal Emergency Control Group Meeting Room is a secure and quiet room located in the Council Chambers.

To promote an effective emergency meeting, this room will be equipped with:

1. A map(s) of suitable scale, depicting up-to-date information related to the emergency;
2. A visual board depicting up-to-date status information on the emergency;
3. A recording device and tapes suitable for recording Municipal Emergency Control Group meetings;
4. 2 (two) telephones for outgoing calls only.

Communication Room

While the Municipal Emergency Control Group is engaged in meetings, assistants will be available to take messages and convey their decisions. Therefore, the Communication Room will be a separate room but in close proximity to the Municipal Emergency Control Group's, Emergency Operations Centre.

To be effective, the Communication Room will be the Meeting Room in the Municipal Building, and it is to include:

1. A map(s) of suitable scale depicting up-to-date information related to the emergency;
2. A visual board depicting up-to-date status information on the emergency;
3. A chronological log of all significant communications and events related to the emergency;
4. Sufficient outside telephone lines for all communicators and the Communications Manager. In the event that there are not enough telephones available, the use of cellular telephones with batteries and/or back-up generators will be considered; and
5. All emergency or support services, with radio communication equipment, will utilize this equipment in the Communication Room.

Each member of the Municipal Emergency Control Group will designate at least one or two persons, depending on the nature and scope of the emergency, to handle in-coming and out-going communications or assistance as otherwise required.

The communicators will be responsible for operating telephones and radios within the Communication Room and relaying messages between their respective representatives on the Municipal Emergency Control Group and other key locations.

Communications Manager – EOC Communications Room

A Communications Manager will be designated by the Township Chief Administrative Officer to co-ordinate activities and communications within the Communication Room. The Communications Manager and an Assistant will be selected at the time of the emergency with preference given to an experienced Police Communicator, a member of a Fire Department not directly involved with the incident, or a municipal employee with emergency planning experience, as available.

The Communications Manager is responsible for:

- a) Providing the Township Chief Administrative Officer with reports on the emergency situation and any other pertinent information at regular intervals, or as requested;
- b) Providing assistance to the communicators in relation to communication equipment problems, where possible and practical;
- c) Co-ordinating and prioritizing the flow of messages between the Communication Room and the Municipal Emergency Control Group, and other desired groups or locations;
- d) Maintenance of a chronological log of significant communications and events;
- e) Maintenance of a situation or status board;
- f) Maintenance of a map(s) containing vital information relative to the emergency;
- g) Making arrangements to obtain private sector communications equipment and facilities, if traditional systems are inoperative;
- h) Activating the emergency notification system of the local amateur radio operators' group, if appropriate.

Emergency Re-Fuelling Centre.

In certain situations, fuel may not be available at the normal re-fuelling centres i.e. service stations. The Township has designated an emergency re-fuelling centre where an extra supply of clear and coloured diesel fuel is stored. Other organizations and emergency vehicles may be given permission to access this fuel supply if necessary. Appendix 17 identifies the location of the Emergency Re-Fuelling Centre, maximum fuel available, and the average amount of fuel traditionally on hand along with a list of those organizations which have requested permission to access this supply if no other sources are available.

Resident Evacuation.

In certain situations, the evacuation of homes and businesses is a necessary precaution to protect the community. Evacuations should be undertaken in a quick and controlled manner, in an effort to ensure residents are not directly threatened by a crisis.

Evacuation Order.

The Mayor, in consultation with the Municipal Emergency Control Group, will order the Police to evacuate residents from any area endangered by a crisis. A copy of an Evacuation Order is provided in Appendix 16. In situations where there is a fire-related emergency or a chemical spill, it may be more appropriate for the Municipal Emergency Control Group to include the Fire Department in the execution of the evacuation. If citizens are immediately threatened, the senior Police or Fire Department official at the Site will issue an evacuation order.

Notification.

The Police or Fire Departments will be responsible for notifying all individuals directly threatened by the incident. Depending upon the circumstances, residents will be advised to (1) leave the area or (2) assemble at an Evacuation Centre for registration and shelter provision. The chief official at the emergency site will update the Municipal Emergency Control Group on evacuation proceedings, as well as providing an estimate on the number of residents being relocated.

Inspection and Demolition.

Municipal Building Officials are responsible for the Inspection of buildings damaged by the disaster prior to their re-occupation. Any decision to demolish unsafe structures should be made in consultation with qualified authorities, including the municipal engineering service.

Financial Compensation.

All individuals and agencies assisting in disaster relief operations may be compensated by the affected municipalities. Invoices related to emergency response operations should be forwarded to the Township Treasurer, who will prepare a damage report for Township Council.

Disaster Recovery Assistance for Ontarians (DRAO) is a program that can help you recover costs after a natural disaster. They may activate DRAO for damage to private property if there is a sudden, unexpected natural event, such as a flood, or tornado that causes costly and widespread damage in your area. If eligible, reimbursement may be made available for cleanup expenses, cost to repair to, or replace, essential property and/or basic emergency expenses like evacuation travel costs. Further information on the process for applying for DRAO funding is available by contacting the representative of the Ministry of Municipal Affairs.

Employee Remuneration.

As indicated in Section 1(2)(c) of the *Worker's Compensation Act, 1990* all employees of the Township of Georgian Bluffs involved in emergency activities will receive earnings equivalent to their regular employment.

Damage Claims.

Residents affected by the disaster can petition their municipalities to submit a damage claim to the Disaster Recovery Assistance for Ontarians (*DRAO*). As public property is not recoverable under the DRAO, the Township will rely primarily on donations to subsidize the cost of repairing uninsured property. In addition, the Mayor can petition the Premier for additional financial support. The representative of the Ministry of Municipal Affairs will provide further information on the DRAO.

Liability for Actions.

Under Section 11 of the *Emergency Management and Civil Protection Act, 1990* no employee or registered volunteer of the Township will be held responsible for actions taken or omitted during an emergency, granted these individuals were acting in good faith. In contrast, the Corporation of the Township of Georgian Bluffs can be held liable for any actions taken or omitted during an emergency.

Right of Action.

Section 12 of the *Emergency Management and Civil Protection Act, 1990* states that where money is expended or cost is incurred by a municipality or the Crown in the implementation of an emergency plan or in connection with an emergency, the municipality or the Crown, as the case may be, has a right of action against any person who caused the emergency for the recovery of such money or cost, and for the purposes of this section, "municipality" includes a local board of a municipality and a local services board.
