July 8, 2022

Attention: Chair and Adjustment Committee

Regarding: Lot 11, 142 Sunset Blvd, Georgian Bluffs, ON N0H 2T0

I am submitting to you a request for a minor variance to allow us to construct a 20x24 detached garage in front of the newly constructed single family residential home we are building for a client. The client will be using the home as their primary residence, and we are requesting the permission to construct so that they can use it to park seasonal cars and to use for storage. By allowing this it will allow them to keep the property tidy and non-cluttered. I believe that this 20x24 detached garage will not affect the look of the property or affect neighboring properties based on where we are requesting it to be allowed to be built.

Thank you

Amanda Weir
