

# Notice of Construction

## Township of Georgian Bluffs Big Bay Culvert Replacement

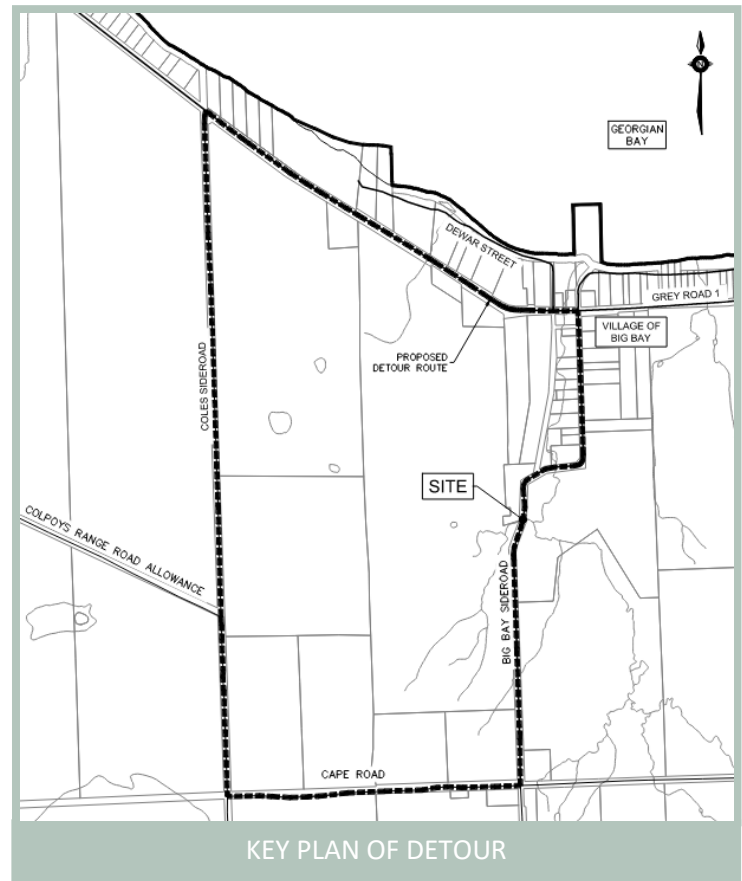

### THE PROJECT

This notice is to advise you that the Township of Georgian Bluffs has retained the construction services of R.F. King Holdings to complete the replacement of the Big Bay Culvert (Structure K-0009). Big Bay Sideroad will be closed between Grey Road 1 and Cape Road starting September 29, 2025 for an approximate duration of seven (7) weeks. It should be noted that these construction schedules are subject to change based on weather and site conditions.

### THE PLAN

The temporary road closure will be implemented to facilitate the replacement of the culvert structure which is currently in a deteriorated condition. The scope of work for construction at the site includes:

- Site mobilization and installation of traffic control measures.
- Asphalt removal, granular excavation and installation of creek diversion.
- Removal and disposal of existing culvert and cable guide rail.
- Assembly and installation of the new SPCSP arch culvert.
- Construction of cast-in-place concrete headwall and segmental block retaining wall at the inlet.
- Backfilling of granular materials and restoration of disturbed embankments.
- Placement and compaction of new asphalt on roadway.
- Supply and installation of new steel beam guiderail including end treatments.
- Final site cleanup and demobilization.

During the roadway closures, access will be maintained to all private properties located within the construction limits at the site. A detour route will be provided during the roadway closure along Coles Side Road for all through traffic requiring access to the opposite side of the culvert structure.

### WHO TO CONTACT ABOUT THIS PROJECT

If you have any questions or concerns at any time during the completion of construction, please contact either of the project representatives below:
